

STEP 1

- 1: Place the base face down on a soft surface.
- 2: Put the breaks on the wheels
- 3: Put a washer between the wheel and the base
- 4: Insert and tighten the wheels by turning them clockwise.

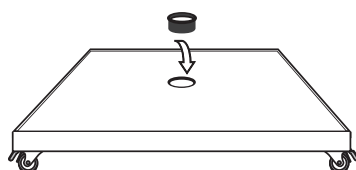

STEP 2

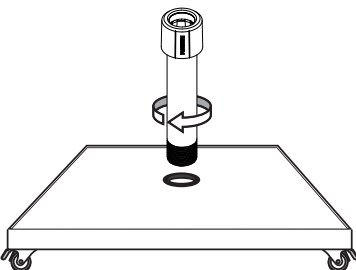

- 1: Place the base face up.
- 2: Fill the base with sand. **Do not fill higher than the inside edges and cross.**
- 3: Remove tape.
